Black toast with honey
A friend of mine stayed in a hotel in India and the manager gave this to her for stomach ache. It really works. Just take a piece of bread and toast it until it's black. Then put honey on the toast and eat it. You don't really need the honey but it makes it taste better! It doesn't look good, but it can really help. So if you get stomach ache, try this remedy.

April 24 9.52

An onion
If you get a high temperature, use an onion. It sounds strange but it helps. Cut one large onion in half and tie half an onion to the bottom of each of your feet. You shouldn't wear socks of course, just bare feet! I use this on my kids and it works every time. The remedy came from a relative from down south.

Heli, Finland
April 23 18.03

A wet teabag
Here are my tips for toothache. You should put a wet teabag on the sore tooth. I always have a wet teabag in the fridge so it's there when I need it. Another idea: take a garlic clove and put it on the tooth. Both these ideas help me nine times out of ten. But if they don't work for you, you should go to a dentist.

Lameed, Egypt
April 23 16.15

Salt water
When I was a child, I got a lot of headaches and my grandmother always did this for me. Put a few drops of warm salt water in your ears. Don't use really hot water. Do this three or four times for both ears. Then lie down and close your eyes for about ten minutes.

Tips of the week

Stay healthy in the workplace

Offices are not always healthy environments. Here are some tips for improving your office and your health.

- ✓ Try to sit near a window. Natural light makes you feel happier.
- ✓ Fresh air is good for you, so you should open the window if possible.
- ✓ If you want to improve the appearance of your office, get some plants.
- ✓ Get a good chair and make sure the top of your computer screen is at eye level. A bad sitting position can give you headaches and back pain.
- ✓ Don't sit near an air-conditioner. It dries out your eyes and skin.
- ✓ If you feel bored, change the colour of your office walls. The right colour improves your mood and helps you to be more creative. White, blue or green offices are better than dark or bright-coloured offices.
- ✓ Don't use the lift. You should always use the stairs. This keeps you fit.
