

4 Achievements

Speaking 1: talking about achievements

A Look at the photos and think about *achievement* and *success*. Think for one minute about what you want to say about each photo.

Sheikh Khalifa bin Zayed Al Nayhan

Tanni Grey-Thompson

Ainan Celeste Cawley

Norman Foster

Margaret Thatcher

Roald Amundsen

B Work in pairs. Take it in turns to choose a photo to talk about.

C Listen to some people talking. Match each extract with one of the photos in Exercise A.

1. _____ 2. _____ 3. _____ 4. _____ 5. _____ 6. _____

Vocabulary 1: achievement and success

A Look at these words and phrases. Then listen again and write the letter of the photo when you hear them.

- | | | |
|--------------------------------|---------------------------------------|------------------------|
| 1. powerful _____ | 2. mental and physical strength _____ | 3. child prodigy _____ |
| 4. courage _____ | 5. creating something _____ | 6. wealth _____ |
| 7. overcome a difficulty _____ | 8. had a big influence _____ | |

B Look at the tapescript on page 283. Look at how the words and phrases in Exercise A are used.

Grammar check

We use the *present perfect* to talk about achievement if the person is still alive or still achieving.

He is only 30 but he has achieved a lot. / I haven't really achieved what I want yet.

We use the *past simple* if the person is dead or has stopped achieving.

Ghandi achieved great things in his life. / Pele achieved a great deal during his career.

Watch out! typical errors

I don't achieve what I want yet. **X**

I don't have achieved what

I want yet. **X**

Vocabulary 2: words that go together

A In each list of collocations, one option is wrong. Use a dictionary and cross it out.

1. have an achievement / success / an influence on something / a few difficulties
2. achieve an ambition / a lot in life / a great deal / a difficulty
3. overcome a difficulty / an obstacle / an ambition / a disability

B There are nine possible expressions in Exercise A. Close the book and write five of them in your notebook. Think about sentences that use them.

Pronunciation check

 Listen to the contractions in these sentences.

1. I've achieved a lot this year. 2. He's overcome many difficulties.

Now listen to how the negative forms *haven't* /hævnt/ and *hasn't* /hæznt/ are pronounced in natural speech.

3. I haven't achieved what I wanted to. 4. She hasn't done everything yet.

Now listen to how *have you* /hævju:/, *has he* /hæz i:/ and *has she* /hæz ʃi:/ are pronounced in these questions.

5. Have you achieved all that you hoped? 6. Has he done what he wanted to do?
7. Has she been successful?

Practise saying all the sentences.

Speaking 2: saying who you think is successful

A Look at the card for part 2 of the Speaking Module. You have a minute to think about what you want to say and make notes.

Who do you know who has achieved something special?

Say ...

- who the person is.
- what they have achieved.
- why the achievement is special.
- how the achievement has influenced other people.

B Walk around and talk with other students. Compare your answers to the question.

Speaking 3: having a two-way discussion

Exam tip: In the third part of the Speaking Module, the examiner will expand the topic in part 2. He or she will ask you to express your opinion on related topics. The topics will be more abstract – less personal than in part 2.

A Mark these questions (E) easy to answer or (D) difficult to answer.

1. Are people born to achieve or do they learn to achieve? —
2. Why are some people better achievers than others? —
3. Is it easier for people to achieve if they have a good education? —
4. Do you have to make money to be successful? —

B Talk with a partner. Answer the questions.

Listening

4

Listening 1: predicting content

- A** Look at the first line of some instructions for a listening task and answer the questions that follow.

Listen to somebody giving a talk about why some children achieve more at school than others.

1. Does it help you to listen to a talk if you are told what the talk is about first?
2. What sort of predictions can you make about the talk before you listen?

- B** Look at the instructions for the listening task in Exercise A again.

1. Predict some of the reasons that the speaker will give.
2. Predict some key words and phrases that you will hear.

Exam tip: In the second part of the Listening Module, you will hear a speaker giving a talk. Before you listen, you are told the topic of the talk. This should make the tasks easier, and you should try to make predictions about content and key vocabulary.

- C** Look at these first lines from a Listening Module.

1. Listen to somebody giving a talk about the life of a brilliant scientist.
2. Listen to somebody giving a talk about how to start your own business.
3. Listen to somebody giving a talk about how older people can continue to learn.

- D** Now look at this typical question from the Listening Module. Which topic above does it refer to?

The speaker says that you need to ...

- a. find out about competition in the local area.
- b. only provide a service that nobody else is providing.
- c. charge less than other companies that provide a similar service.

- E** Can you guess which answer in Exercise D is correct without listening to anything?

Exam tip: It is sometimes possible to guess answers from what you know about a topic, but it is better if you actually hear the speaker provide the answer.

Listening 2: listening for paraphrased language

- A** Tick the advice below that is correct.

1. Multiple choice is easy. You look at the words in the questions and then listen for them.
2. Multiple choice is not so easy, because the words in the questions are not the same as the words that you hear.

Exam tip: In some parts of the Listening Module, you listen for specific information, like names and numbers, but in other parts you need to listen for clues. You need to hear words and phrases that mean the same as those in the question and understand when ideas are expressed in different words.

- B**  Listen to this extract that provides an answer to the question in Listening 1D. Choose a, b or c.

- C**  Listen again and identify the words and phrases that provide the answer and tell you that the other options are wrong. Then check the tapescript on page 284.

Listening 3: practise predicting and paraphrasing

- A** Look up 'set goals' in a dictionary and make sure you understand its meaning.

- B**  Listen to somebody giving a talk about how setting goals can help you achieve more.

For questions 1–4, choose the correct letter a, b or c.

1. The speaker says that achievement means ...
 - a. making money.
 - b. the same thing to everyone.
 - c. getting what you want.
2. The speaker says that to achieve something, you must ...
 - a. really want it.
 - b. believe that getting it is possible.
 - c. talk about it a lot.
3. The speaker says that setting goals will ...
 - a. help you understand what is really important to you.
 - b. stop you worrying about the future.
 - c. help you to do well in business or to become an athlete.
4. The 'big picture' means ...
 - a. setting short-term goals.
 - b. planning a long way ahead.
 - c. one important area of your life.

For questions 5–9, choose five answers from A–H. When the speaker talks about different areas of life, which of these does he mention?

- | | |
|---|-----------------------------|
| A the job you do | B money |
| C being very well-educated | D marrying the right person |
| E having a family | F playing different sports |
| G not doing things that are bad for your health | H leisure time |

5. _____ 6. _____ 7. _____ 8. _____ 9. _____

For question 10, choose the correct letter a, b or c.

10. The speaker says that ...
- a. making other people happy is very important.
 - b. you must forget about other people completely.
 - c. you must think about yourself first.

- C** Check the key on page 267. How many questions did you answer correctly?

- D** Tick the sentences about the listening task that are true for you and think about how you can answer more questions correctly next time.

1. It helped to know the topic of the talk before I listened.
2. I looked through the questions and made predictions.
3. I guessed some answers correctly before I listened.
4. I listened for paraphrased language.
5. I am happy with how many questions I answered correctly.

Reading 1: making sure that information is given in the text

A Look at the picture of Ainan Celeste Cawley. You talked about him earlier in this unit. Answer these questions with a partner.

1. What do you remember about Ainan from the short listening extract?
2. What else would you like to know about him?

B Look at these sentences about Ainan and guess whether they are (T) true or (F) false.

1. He is a very unusual child. _____
2. His parents want him to go to university. _____
3. He is the cleverest child in Singapore. _____
4. He has already passed Chemistry A level. _____
5. Everyone thinks he is ready for university. _____
6. Even as a baby, he was very advanced. _____
7. He watches a lot of TV. _____
8. His father taught him all about Chemistry. _____

C Read the article below and check your answers. Then mark the sentences in Exercise B (T) true, (F) false or (NG) not given.

Prodigy Ready for University?

Seven-year-old Ainan Celeste Cawley is a child prodigy, and his parents are searching for a university that will take him at such a young age. His father says that a brilliant mind could be lost if he is not given a place.

Ainan's mother is from Singapore and his father from Britain. He has already passed his O level* Chemistry, and he is studying to take his A level**, but some experts believe that not having a normal childhood can do long-lasting damage and do not believe he should go to university just yet.

Ainan's father says that Ainan was always a special child. He could walk when he was only six months and talk in long sentences when he was one. As a very small child, he enjoyed reading science books and could understand difficult scientific texts. His parents think that he is like other children in many ways. He draws and paints and he loves watching Mr Bean on TV.

His father first realized that Ainan was very interested in chemistry when, at six years old, he picked up a Chemistry O level paper and answered all the questions. It was then discovered that he had learnt all about the subject by surfing the Internet.

* An exam that school students in some countries take when they are 16.

** An exam that school or college students in some countries take when they are 18.

Exam tip: You have already practised true/false questions in this book, but in the Reading Module the task is a little more difficult. You can also answer (NG), which stands for Not Given, so you have three options. When you do this kind of task, do not use your own knowledge of the topic or assume that an answer is obvious. You must find the answer in the text.

D Look at these comments that a student has made about the questions in Exercise B. Which questions does the student answer correctly?

1. 'The text says that Ainan is a *prodigy* and later that he is *special*, so the answer is true.'
2. 'His parents are *searching* for a university, so again the answer is true.'
3. 'He is only six and he is going to university, so nobody in Singapore is cleverer than him. The answer is true again.'
4. 'He has passed his O level, but he is studying now for his A level, so this one is false.'
5. 'The text only says what his mother and father think. It doesn't say what everyone thinks. The answer is not given.'
6. 'This is easy. He could walk when he was six months, so the answer is true.'
7. 'The text only mentions one programme, *Mr Bean*, so the answer is false.'
8. 'No, this one is false. The text says he *learnt by surfing the Internet*, so his father didn't teach him.'

E Check the real answers on page 267. Did you make any of the same mistakes?

Reading 2: recognizing distracters

Exam tip: The questions will sometimes try to trick you. For example, the question will include words from the text that make you think an answer is true when it is not.

A Look at this question from Reading 1B again. Why could you make a mistake if you read too quickly?

4. He has already passed Chemistry A level. ____

Reading 3: practise finding the right information

A Look only at the four names in the text below. What is each person famous for?

B The text is about successful business people who don't have a degree. Read it and answer the questions.

For questions 1–4, match the headings below with the names. There is one more heading than you need. Write the letter into the space.

- a. Not what others wanted
- b. Changing a whole industry
- c. Regrets about leaving university
- d. So many different ideas
- e. A difficult early life

1. Richard Branson ____
2. Coco Chanel ____
3. Henry Ford ____
4. Bill Gates ____

Who Needs a Degree to Succeed in Business?

Most people assume that working hard in high school and going to the right college or university is the best way to end up with a successful career. Parents and teachers spend much of their time emphasizing the need for a good education and warning the young about what will happen if they don't get the best grades.

But is a degree really so important? There are many graduates who never find the well-paid job they think they deserve. On the other hand, there are plenty of entrepreneurs and high-fliers who dropped out of school and became millionaires. Here are just a few.

Richard Branson is best known for his sense of adventure. He dropped out of school at the age of 16 and started his first successful business venture, a magazine called *Student*. He is the owner of the Virgin brand that has 360 companies, ranging from record labels and music stores to airlines, banking and Internet services.

When **Coco Chanel** was 12 years old, her mother died and her father ran away. She spent six years in an orphanage. At 18, she started work as an assistant to a tailor. Later she became one of the world's best-loved fashion designers. The perfume that carries her name, Chanel No. 5, ensures that she is still famous today.

At 16, **Henry Ford** left home to become an apprentice to a machinist. He soon became an engineer and later started the Ford Motor Company. His first major success, the Model T, allowed him to open a large factory and start the assembly-line production that revolutionized the way cars were manufactured.

Between 1995–2006, **Bill Gates** was the world's richest person but he was a college dropout. His parents hoped he would be a lawyer, but he left Harvard College in 1975 to set up his own computer software company and become a pioneer of technological advance.

Of course, just because these people are or were hugely successful doesn't mean that everyone can get to the top in business without a college or university degree. However, if you really do have an entrepreneurial spirit, a degree may just be an extra!

Related Articles: [Inspiration at work](#)

For questions 5–12, decide if the information given below agrees with the information given in the passage. Write (T) true, (F) false or (NG) not given.

5. Parents and teachers tell young people that they should study hard. _____
6. Most people who go to college don't get the job they really want. _____
7. All the most successful people in the world have been to university. _____
8. Richard Branson started producing a magazine while he was a student. _____
9. Coco Chanel liked making perfume more than designing clothes. _____
10. Henry Ford always wanted to make cars. _____
11. Bill Gates left college to go into business. _____
12. Most people can be successful without a good education. _____

C Highlight the parts of the text that provide the answers.

D Check the key on page 267. How many questions did you answer correctly?

E Tick the sentences about the reading task that are true for you and think about how you can answer more questions correctly next time.

1. I skimmed the passage to answer questions 1–4. _____
2. I was happy with the time it took to answer questions 1–4. _____
3. I read more slowly and carefully to answer questions 5–12. _____
4. I found the information that provided answers and I didn't need to guess. _____
5. I am happy with the time it took to answer questions 5–12. _____

Key vocabulary in context

Mark these words and phrases (L) if they are more related to learning and (W) if they are more related to work.

- | | | |
|---------------------------|---------------------|--------------------------|
| 1. degree _____ | 2. career _____ | 3. education _____ |
| 4. best grades _____ | 5. graduates _____ | 6. entrepreneur _____ |
| 7. business venture _____ | 8. apprentice _____ | 9. college dropout _____ |

WB For focus on reading skills, go to Workbook page 13.

Writing 1: understanding the task

A Look at the photos and answer the questions below with a partner.

1. What do the images have in common?
2. What different ideas of success and achievement do the photos show?

B Look at the instructions for a typical writing task.

In today's world, success and achievement are too often measured by wealth and the material possessions that a person has acquired.

Do you agree with the statement?

C Now tick the comment in each pair below that is true for you.

1. **a.** I understand all the words in the statement.
b. I don't know some words in the statement.
2. **a.** I understand the statement and I can answer the question.
b. I don't understand the statement, so I can't answer the question.

D Look at the instructions again below and the notes that a student has made on them.

things people have, like big houses and cars

In today's world, success and achievement are too often **measured** by **wealth** and the **material possessions** that a person has **acquired**.

how much money somebody has

managed to get

If you measure something, you say how big it is.

Do you agree with the statement?

Writing 2: deciding what to say

A Make sure you understand the writing task above and tick the comments below that are true for you.

1. I don't know what to say about this topic. I could not write about it even in my own language.
2. I know what I want to say, but it's very difficult to say in English.
3. I can say what I want to say about this topic quite easily in English.

Exam tip: In the second part of the Writing Module, you need to express your views on a topic like this one. You do not need to be an expert on the topic, but you must have something to say. Think about how you would answer the question in your own language first.

B Work in small groups. Brainstorm some points that you could make.

C  Two British students are brainstorming ideas before they do this writing task. Listen and note down the points they make.

D Now look at the composition that one of the students has written. Does it include all the points that he and his partner discussed?

There are different ways to measure success and achievement. Being best at a sport, discovering or inventing something, helping people and even saving a life are all important achievements. Just looking after your family and making them happy is an achievement. However, I think it is true that now too many people believe that success and achievement is about wealth and having things like a big house and a fast car.

People think wealth is so important because they see images on TV and in magazines. They want to be like a film star or famous footballer, and they think everyone else does too. Most people can name hundreds of actors or rock stars, but they do not know the names of doctors or scientists. People know teachers and nurses are important, but they do not think they are really successful. People who work in advertising make money, and so people consider them successful.

Of course, there are times when people recognize other kinds of achievement. During the Olympics, for example, athletes are very popular because they win medals, not because they are wealthy. However, people do not remember those athletes for long. They are more interested in footballers, and I think that is because footballers are so rich.

The world will be better if more people realize that real success and achievement means being happy and doing things because you want to. I think, though, that the more young people watch TV, read magazines and surf the Internet, the more they will measure success and achievement by wealth and by the material possessions that a person has acquired.

E  Listen to the students in Exercise C again. Highlight the points in the composition as you hear them.

F Choose one option below about the answer the student has given.

1. He has agreed with the statement and given evidence to say why.
2. He has disagreed with the statement and given examples of why he thinks it is not true.
3. He has balanced his arguments and has neither agreed nor disagreed with the statement.

Writing 3: organizing your points

A Put the stages into the order in which they appear in the composition.

- ___ Give plenty of evidence that shows why you agree with the statement.
- ___ Begin the summarizing paragraph with a strongly expressed opinion.
- ___ Repeat the main idea of the statement and say again that you agree with it.
- ___ Say that you agree with the statement.
- ___ Show that you understand the statement – define key words in the statement.
- ___ Give an example of why some people might not agree with the statement.

Exam tip: However you answer the question, you must organize points logically. The examiner must be able to read your composition easily.

B Look at the exam practice section on page 57 for the writing task.

Speaking

A In the third part of the Speaking Module, you need to express your opinions. Mark these sentences (T) true or (F) false.

1. If you don't know what to say, you can ask for another question. _____
2. You must try to answer the questions that the examiner asks. _____
3. You must show that you know a lot about the topic. _____
4. You should think for a moment before you answer the questions. _____
5. You can ask the examiner to explain a word that you don't understand. _____
6. You must say something that the examiner will agree with. _____
7. You should speak clearly and fairly slowly. _____
8. Your language must always be grammatically correct. _____

B Look again at this question from the unit. Can you remember how you answered it?

Are people born to achieve or do they learn to achieve?

C  Listen to some students answering the question. Mark each speaker (G) good answer or (NG) not a good answer.

Speaker 1 _____ Speaker 2 _____ Speaker 3 _____ Speaker 4 _____

D Which speaker in Exercise C ...

- a. makes grammatical mistakes and uses simple vocabulary but gives a good answer. _____
- b. understands the question but doesn't give a full answer. _____
- c. doesn't understand the question and should ask to hear it again. _____
- d. uses grammatically correct language and a range of vocabulary to give a very full answer. _____

E Answer these two questions with a partner.

1. Does being successful mean doing better than other people?
2. Can you only enjoy success if other people know about it?

Vocabulary

A Fill the gaps with a word made from the root words in the box.

1. I think Mustafa will have a very _____ career.
2. She had to overcome a number of early _____.
3. My brother works hard, but he isn't very _____.
4. You need great mental _____ to be a real achiever.
5. Martin's father is a very _____ man.
6. Most people think that a good _____ is very important.

success
difficult
ambition
strong
power
educate

B Which one phrase in the list does not collocate with *have*? Cross it out. Then write sentences using all the other words in the list in your notebook.

- | | | |
|----------------------|----------------------|-------------------|
| a. have ambition | b. have a dream | c. have an idea |
| d. have problems | e. have difficulties | f. have an effect |
| g. have an influence | h. have a failure | i. have success |

Errors

A There are errors in all of these sentences (sometimes more than one). Correct them.

1. James has made a lot of success in business.
2. I don't have achieved what I want yet.
3. He was teached Chemistry at school.
4. My father had an influence in my decision.

Exam Practice

4

Reading

A Read the advertisement on the opposite page for an exhibition in London.

For questions 1–3, match the pictures below to the appropriate section of the text. Write the letter in the space.

1. ____ 2. ____ 3. ____

For questions 4–7, identify which section contains the following information. Write the letter of the section in the space.

4. People have not seen some of the film ever before. ____
 5. Many different types of achievement are included in the exhibition. ____
 6. The exhibition uses both very old and very modern technology. ____
 7. People can see things from all over the world. ____

For questions 8–14, decide if the information given below agrees with the information given in the advertisement. Write (T) true, (F) false or (NG) not given.

8. You can relive both positive and negative experiences. ____
 9. Some famous world leaders have been to the exhibition. ____
 10. You can experience walking on the Moon. ____
 11. The World Cup goals have all been filmed recently. ____
 12. You can beat a famous boxer and a famous tennis player. ____
 13. There is nothing for people who like painting and books. ____
 14. There is no need to pay for small children. ____

July 29th – September 5th

London History Museum

Special exhibition

Human Achievement on Film

A Human Achievement on Film is an exhibition you cannot miss. See photographs and film of Man's greatest achievements. From the earliest film of the nineteenth century to the wonders of digital photography, satellite TV and virtual reality – you will be taken on a tour of the events that have changed our world. You can experience for yourself amazing and terrifying moments of success and failure. You will be part of history.

B World leaders
See thousands of the best-loved photographs of the people who have steered us through history. Relive the events that have put us where we are now. Watch previously unseen film of Queen Victoria, Martin Luther King and Lenin, and learn about the techniques that great speakers use to inspire us. Then step into a virtual world and make a speech to an audience of millions!

C Science and invention
Enjoy a journey through 120 years of scientific achievement. See photographic collections from Alaska to Australia! Enjoy some wonderful moments captured on film. Watch the earliest clips of Man's attempts to fly, and then experience failure for yourself as you crash one of the first gliders! Then take those first legendary steps on the Moon in your very own spacesuit!

D Sport
See the photographs and film that inspire every hopeful athlete. Wonder at the earliest Olympic images and celebrate the goals from the World Cups of yesterday. Experience the joy of winning and the heartbreak of losing. Climb into the ring and fight a round with Muhammed Ali or grab a racket and try to return a few of Roger Federer's serves!

E And more
Enjoy images and exhibits celebrating every area of human achievement. Exploration, discovery, architecture, engineering, medicine, art and literature and much more – it's all here.

'An unmissable experience!' *The Times*
'A unique journey' *The Daily Mail*

Museum open daily from 9 a.m. to 6 p.m. **Adults** £6.50 **Children** £3.00 **Under-fives** free

Writing

- A** Look carefully at the instructions for this writing task. Highlight the key words, check them in a dictionary and make sure you understand what you have to do.

You cannot achieve great things with talent alone. You must work hard and have the support of people around you.

Do you agree with the statement?

- B** Work with a partner. Brainstorm points that you could include in the composition. Make notes in your own language if you want to.
- C** Write the composition. Try to use about 200 words. Look again at the composition in the Writing section and follow the stages in Writing 3A.
